The Nymph... Behind the Pix

Photography and Writing by:
Bryan Willis

Behind every man there is a creative woman willing to make his vision a reality. Behind every woman there is a passionate man willing to capture her beauty in one thousand words. For generations the female form has been the focus of classical and contemporary artist alike.

Who is the man behind all of these curvaceous forms and what sort of a person makes art of this nature? Meet Bryan Wills, The photographer and creative mind behind the camera. Learn more about the millennial who, like many, is obsessed with and has drawn inspiration for his work through the myriads of 90's cartoons, video games, and other forms of new media that built an entire generation.

What does it take to become a nude photographer? Among many things, a solid foundation in art and design, and technically oriented mindset of someone who is willing to approach a problem and come up with the most efficient design solution! Learn from someone who's been there as Bryan Willis, otherwise known as Nymph, describes to the current state of the industry, his process, and even the many societal challenges he faces on a daily basis.

Nude women are a subject that many enjoy seeing, but feel so deeply ashamed of. The female form is the forbidden fruit of our society, our generation, and our time. Feminine charm adorns our media and allures us from every direction, yet we are all quick to dismiss it's effect on ourselves. Women are a subject in new media that we idolize. without even realizing it. To create art based upon the curvaceous feminine form, is not only to throw light upon the weaknesses and insecurity of society, but to carry the burden of thousands of years of abuse and mistrust.
